

The Central Houston Professional Chapter of Engineers Without Borders USA Presents:

# Happy Hour Fundraiser

Come out and help us support the South Africa Project Team of EWB-USA as they seek to raise \$50,000 to implement a clean-water project in the Bergnek Community, South Africa. The Team just returned from a data-gathering trip to the community, and are currently designing a solution to provide the entire community with access to clean water. Help us raise funds to see the project implemented in August 2015!
